Confidential — For Prospect Use Only

■ ■ Restaurants & Cafes

Full digital ecosystem for food businesses — from online ordering to kitchen management.

CUSTOMER-FACING FEATURES

■ Customer Website

A beautiful, mobile-first website where customers discover your restaurant.

- View ratings & reviews from real customers
- Browse full menu with photos, descriptions, allergen info
- See dish details — ingredients, calories, chef notes
- Festival & seasonal discount announcements
- Special pricing banners (Happy Hours, Weekend Offers)
- Real-time table availability checker

■ Online Food Ordering System

Let customers order directly from your website — zero commission.

- Browse menu by category (Starters, Mains, Desserts, Drinks)
- Customise dishes (spice level, add-ons, remove ingredients)
- Real-time order tracking (Placed → Preparing → Out for Delivery → Delivered)
- Scheduled orders (order now, deliver at 7 PM)
- Multiple payment options: UPI, Card, Wallet, COD
- Order history and easy reorder
- Estimated delivery / pickup time shown live

■ Loyalty Points System

Reward your regulars and keep them coming back.

- Earn 10 points on every order of Rs. 200 or above
- 100 points = Rs. 100 off on next order (free redemption)
- Points wallet visible in customer profile
- Birthday bonus points automatically credited
- Points expiry reminders via WhatsApp / Email
- Referral bonus — refer a friend, earn extra points

■ Customer App (Mobile)

A dedicated mobile app for Android & iOS.

- Push notifications for order updates, offers, new dishes
- Saved addresses for faster checkout
- Favourite dishes & wishlist
- In-app chat / support

- QR code scan to order at table (Dine-in)

■ Table Reservation System

Online booking so customers never have to wait or call.

- Select date, time, number of guests
- Pre-order food while booking
- Instant confirmation via SMS / WhatsApp
- Cancellation & rescheduling
- Waiting list for fully booked slots

■ AI Chatbot

24/7 virtual assistant on your website and WhatsApp.

- Answer menu questions instantly
- Take orders via chat
- Handle reservation requests
- Send festival offers & promotions automatically
- Collect feedback after every order

ADMIN PANEL FEATURES

■ Inventory & Stock Management

Never run out of key ingredients again.

- Real-time stock levels for every ingredient
- Low-stock alerts (e.g. "Paneer stock below 2 kg")
- Daily / weekly consumption reports
- Vendor management — reorder directly from admin panel
- Waste tracking to reduce losses

■■■ Staff Management

Manage your entire team from one dashboard.

- Add staff roles: Manager, Waiter, Chef, Delivery Boy
- Attendance tracking (check-in / check-out)
- Shift scheduling & rotation planner
- Salary management & advance tracking
- Performance reports per staff member

■ Revenue & Financial Dashboard

Know exactly where your money is coming from.

- Daily, weekly, monthly revenue charts
- Top-selling dishes report
- Revenue by order type (Dine-in, Delivery, Takeaway)

- Discount & coupon usage report
- Tax / GST report for accountant
- Export to Excel / PDF

■ Menu Management

Update your menu anytime, no tech help needed.

- Add / remove / update dishes instantly
- Mark items Out of Stock with one click
- Schedule seasonal menu (e.g. Navratri special items)
- Set different pricing for Dine-in vs Delivery
- Upload dish photos directly from admin

■ Order Management Dashboard

See and manage every order in real time.

- Live order feed — new orders ping instantly
- Accept / reject / assign orders to kitchen
- Estimated preparation time management
- Order history with filters (date, type, status)
- Refund & cancellation handling

■ Marketing & Promotions Panel

Run offers without needing a marketing agency.

- Create discount coupons (flat off, % off, BOGO)
- Schedule WhatsApp & email campaigns
- Push notification sender for app users
- Festival campaign templates (Diwali, Eid, New Year)
- Customer segmentation — send offers to loyal customers only

■ Clinics & Hospitals

End-to-end digital solution for healthcare providers — from patient booking to billing.

CUSTOMER-FACING FEATURES

■ Patient Website

A professional, trustworthy website that brings in new patients.

- Doctor profiles with qualifications, specialisations, experience
- Department listings (General, Ortho, Skin, Dental, etc.)
- Patient testimonials & ratings
- Gallery of facilities
- Blog / health tips section
- Emergency contact & location with Google Maps

■ Online Appointment Booking

Patients book 24/7 — no more phone queues.

- Select doctor, specialisation, available slot
- Teleconsultation / video call option
- Instant confirmation via SMS & WhatsApp
- Reschedule or cancel from patient portal
- Reminder notifications 1 hour before appointment
- New patient registration form integrated

■ Patient Portal

A personal health dashboard for every patient.

- View past prescriptions & reports
- Download medical records as PDF
- Track upcoming appointments
- Medication reminders
- Chat with doctor post-consultation

■ AI Health Chatbot

24/7 intelligent assistant on the clinic website.

- Answer common health queries
- Guide patients to the right department / doctor
- Collect symptoms before appointment (saves doctor time)
- Send appointment reminders automatically
- Post-visit feedback collection

■ Online Payments & Insurance

Frictionless payment experience.

- Pay consultation fees online in advance
 - Invoice & receipt generation
 - Insurance claim document upload
 - EMI option for large treatments
-

ADMIN PANEL FEATURES

■■■■ Doctor & Staff Management

Manage your entire clinical team.

- Doctor schedules & availability calendar
- Leave management
- Specialisation-based routing of patients
- Staff roles: Receptionist, Nurse, Lab Technician
- Attendance & payroll

■■ Patient Records (EMR)

Digital health records — secure and instant.

- Full patient history in one place
- Previous prescriptions, test reports, diagnoses

- Day-end cash reconciliation

■ Sales & Revenue Analytics

Know what's selling and what's not.

- Top-selling products report
- Category-wise revenue breakdown
- Customer purchase frequency
- Slow-moving stock alerts
- Profit margin per product

■ AI Solutions

Custom AI products built specifically for your business — not generic bots.

WHAT WE BUILD

■ AI Chatbot

A custom chatbot trained on your business data.

- Handles customer queries 24/7 without human intervention
- Integrated into your website, WhatsApp, and Instagram DMs
- Takes bookings, orders, and appointments via chat
- Sends promotional messages and follow-ups automatically
- Escalates complex issues to human staff

■ AI Agents

Intelligent agents that can perform multi-step tasks autonomously.

- Automated lead follow-up agent — contacts new enquiries within seconds
- Inventory reorder agent — detects low stock and raises POs automatically
- Review monitoring agent — tracks Google & social reviews and alerts you
- Sales report agent — sends daily summary to your WhatsApp every night
- Appointment reminder agent — calls/messages patients / clients automatically

■■ Automation Bots

Bots that handle repetitive tasks so your team doesn't have to.

- WhatsApp order bot for restaurants
- Instagram DM auto-reply bot
- Review collection bot (post-service)
- Payment reminder bot for pending dues
- Birthday / anniversary greeting bot for loyalty customers

■ Social Media Growth

We build your Instagram presence from zero — content, growth, and credibility.

WHAT YOU GET

■ Content Creation

Professional posts designed for your brand.

- Branded post templates matching your business identity
- 15–20 posts per month (reels, carousels, stories)
- Festival & event posts (Diwali, Christmas, Republic Day etc.)
- Promotional offer posts with custom design
- Behind-the-scenes and product / service highlight content

■ Follower Growth Strategy

Real, targeted growth for your niche.

- Hashtag research & optimisation for your industry
- Engagement strategy — comments, replies, collaborations
- Competitor analysis to identify growth opportunities
- Monthly growth report with follower analytics
- Story polls, Q&As; to boost engagement

■ Account Handover

You get a ready-to-use, credible Instagram page.

- Active page with X followers handed to you
- Full login credentials and admin access
- Content calendar for the next 30 days
- Trained to handle DM enquiries if AI chatbot added
- Optional: we continue managing the account on retainer

Why Krithvik Dev Co.?

We're not a generic agency. We're your dedicated tech partner.

■ Industry-Specific Solutions

Every feature is built around how your type of business actually operates. No copy-paste software.

■ Fast Delivery

Most projects delivered in 2–4 weeks. We move fast without cutting corners.

■ Full Support

We don't disappear after launch. Ongoing support, updates, and improvements included.

■ Honest Pricing

Transparent, fixed-price packages. No hidden charges, no surprise bills.

■ AI-First Thinking

Every product we build is designed to leverage AI — reducing costs and scaling your operations.

Ready to build something great?
